

AFRICAN TACTICAL SECURITY

COMPANY PROFILE 2026

Building a Secure Future Across Africa

INTELLIGENCE-LED. TECHNOLOGY-ENABLED. AFRICA-FOCUSED.

EXECUTIVE SUMMARY

African Tactical Security (ATS) is a specialist risk management and private security corporation delivering protective operations, technology integration, and strategic intelligence across Sub-Saharan Africa. Built on global standards and authentic local insight, ATS safeguards enterprise assets, critical infrastructure, high-net-worth individuals, and complex industrial sites.

Presented by: African Tactical Security
Est. Operational History: Over 15 Years

Coverage: Sub-Saharan Africa

01. EXECUTIVE OVERVIEW & FOUNDATIONS

African Tactical Security operates at the intersection of elite protective services, geospatial risk intelligence, and advanced monitoring technology. Our operations navigate complex regulatory frameworks, dynamic security environments, and diverse stakeholder ecosystems across the African continent.

Core Mission: To deliver intelligence-led, technology-enabled security solutions that protect people, assets, and operations across Africa—ensuring practical, proportionate, and ethically grounded protection aligned to international legal standards.

FIVE CORE PRINCIPLES

1. PREVENTION

Proactive threat mitigation, risk mapping, and deterrence strategies to resolve vulnerabilities before security incidents occur.

2. INTELLIGENCE

Information-driven planning, situational awareness, and deep local insight integrated into all operational deployments.

3. TECHNOLOGY

Verification through automated sensors, AI analytics, and GPS tracking paired with experienced human decision-making.

4. ACCOUNTABILITY

Documented audit trails, real-time reporting dashboards, and operational transparency across every deployment level.

5. RESPECT

Strict adherence to international human rights standards, local community engagement, and ethical code of conduct.

STRATEGIC VISION & VALUES

OUR VISION

To be recognized as Sub-Saharan Africa’s most trusted security partner, renowned for operational excellence, uncompromising ethics, continuous technological innovation, and sustainable community impact.

CORE OPERATING VALUES

Integrity · Professionalism · Excellence · Discretion · Adaptability · Accountability · Respect
These values govern every engagement, client partnership, and operational escalation.

02. INTEGRATED SECURITY SERVICES & TECH CAPABILITIES

ATS provides a multi-layered security portfolio designed for corporate, high-value, and critical infrastructure clients. By combining tactical field units with our 24/7 Security Operations Centre (SOC), we deliver unified protection across all operating environments.

CORE OPERATIONAL SERVICES

SERVICE LINE	OPERATIONAL DESCRIPTION	COVERAGE AREA
Armed Response & Intervention	24/7 tactical deployment, perimeter protection, rapid emergency escalation, and threat neutralization.	National
Executive & Close Protection	Personalized low-profile or high-visibility security for executives, diplomats, VIPs, and high-net-worth clients.	Regional
Mining & Remote Site Security	Specialized protective services for extractive industries, energy plants, supply corridors, and remote installations.	Pan-Africa
SOC & Off-Site Monitoring	Real-time video surveillance coordination, remote alarm verification, access management, and incident dispatch.	24/7 Global/Local
Risk Assessment & Audit	Comprehensive vulnerability mapping, penetration testing, physical security audits, and risk mitigation strategies.	Consulting

INNOVATIVE TECHNOLOGY CAPABILITIES

CAPABILITY	TECHNICAL FOCUS	CLIENT BENEFIT
AI Video Analytics	Automated perimeter detection, facial recognition, and behavioral anomaly alerts.	Early Threat Warning
Geospatial Tracking	Real-time GPS tracking for convoy vehicles, field personnel, geofencing, and duress triggers.	Live Situational Awareness
Smart Perimeter & Drones	Thermal imagery drone sweeps combined with physical ground sensor arrays.	360° Remote Site Coverage
Digital Incident Management	Cloud-based incident logs, instant action tracking, compliance records, and reporting.	Rapid Response & Auditability

03. OPERATING MODEL, GOVERNANCE & QUALITY

CLIENT ENGAGEMENT LIFECYCLE

ATS applies a structured, intelligence-led process to every engagement:

1. DISCOVER

Stakeholder alignment & risk environment evaluation.

2. ASSESS

Detailed physical vulnerability & threat assessment.

3. DESIGN

Customized security architecture & SOP development.

4. DEPLOY

Managed execution, personnel training & tech integration.

5. MONITOR

24/7 SOC tracking, real-time KPI auditing & incident review.

6. IMPROVE

Continuous adaptation to evolving African threat landscapes.

GOVERNANCE, ETHICS & LEGAL COMPLIANCE

ATS operates under a rigorous governance framework aligned with national regulatory authorities and international best practices:

- **Legal & Regulatory:** Full compliance with national security licensing, labor laws, and weapons regulations.
- **Human Rights:** Strict adherence to Voluntary Principles on Security and Human Rights and lawful use-of-force.

- **Zero Tolerance:** Strict anti-bribery, anti-corruption, confidentiality, and data protection enforcement.
- **ISO Alignment:** Standardized operational procedures, regular quality audits, and personnel screening.
